

## Regional Manager

**33,661 – 36,313**

### **37 hours per week (including some evening and weekend work)**

Formed as a Charitable Trust in 2002, Kirklees Active Leisure (KAL) is responsible for the management, operation and development of the 11 main sports centres and swimming pools in Kirklees.

KAL's vision is to get "more people, more active, more often" by providing opportunities for affordable sport, leisure and recreational activities for local people. We are the leading provider of sports and leisure activities in the Kirklees Area.

An outstanding opportunity has arisen for a dynamic, adaptable and inspirational individual to join us. You will be responsible for the effective operation and performance of a number of our diverse sites through the direct line management of the Operations Managers; driving the development and implementation of Kirklees Active Leisure's Business Strategy at operational level.

It's likely you're a proven leader with expertise in business planning, facilities management, or sports development, community development, or event management. You will have a track record of delivering / exceeding targets and of adhering to performance / quality systems together with a commitment to engaging all partners across the public, private and voluntary sector.

You will be required to motivate and drive sites to deliver service and facility improvement, measured by a suite of service standards. In addition, you will take a corporate lead in two of the following areas, Aquatics, Fitness, Front of House, Sports Activity or Catering and Events. Experience of contributing to and leading on a range of capital/revenue projects would be useful.

In return, we can offer you a contributory financial salary pension scheme, fantastic staff benefits scheme, generous holidays and opportunities for further training and development.

Interviews will take place over two separate days. Day one is on Friday 2<sup>nd</sup> March and all short listed candidates will be required to attend. Further short listing will take place during the day and final interviews will take place on Thursday 15<sup>th</sup> March.
